Idea Submission Format

Your idea submission should contain the following points:

- **Team Name:**
- **Team members details:**   *1. Member 1 [contribution]*
  2. Member 2 [contribution]
  3. Member 3 [contribution]
  4. Member 4 [contribution] ...

- **Selected theme:**

- **Problem Statement:** What's the big idea? What are you going to solve?

- **Description of the desired application:** What are you building in order to solve the big problem? Who are its competitors and how is your solution different from the rest?

- **Solutioning and Methodology:** Explain, in brief, how you intend to SOLVE the problem at hand. Please include the following:
How does it help to solve the problem?
What are the impact metrics that one can use to analyze the effect of the solution?
Assumptions, constraints, and solution decision points (Reason behind choosing a technology)
How easily can your solution be implemented and how effective will it be?
Extent of Scalability/Usability
Who all can leverage your solution?

- **Tech Stack:** Your choice of frameworks, technology, and platforms that will be adopted to build your idea for a great demo! You can choose to build on any framework or language, such as Python, Java, NodeJS, etc (for backend) or Flutter, Kotlin, Swift, React Native, etc. Choose your poison but give reasons why you chose it.

- **Visualisations:** Flowcharts, diagrams, wireframes or even doodles!

- Other relevant details or attachments *[Optional]*
